# THE ARCHITECT'S PLEDGE

I solemnly pledge to:

Dedicate my service to the development of society and  
improvement of the environment;

Act with prime regard to public safety and interests;

Practise my profession with conscience and dignity;

Uphold the standing and reputation of the profession;

Discharge my duties to my clients with complete fidelity;

Respect and cooperate with all fellow architects;

Exercise due diligence;

Comply with laws and regulations;

Adhere to the code of professional conduct;

And constantly strive to upgrade my skills and knowledge.

I make these promises solemnly, freely and upon my honour.

## SPEAKERS

### **AR. RUDY TANDUN TASLIM**

Founder and Principal, Genesis Architects

Under Rudy's leadership, Genesis Architects has become a versatile and multi-disciplinary practice with a diverse portfolio in Singapore and overseas. Founded in 2013, the practice spans master-planning, architecture and interior design, and general design consultancy.

As founder and Principal of Genesis Architects, Rudy leads project teams for both architectural and interior design works, in Singapore and beyond. He has handled projects of various scale and complexity in a wide spectrum of typologies, ranging from integrated developments, masterplans, commercial, residential, and institutional projects in Singapore, Asia Pacific and Africa.

Rudy's designs are versatile and unique as he believes in fulfilling the aspirations of the clients, however diverse each project brief may be.

Rudy started Genesis Architects after a decade of professional experience in the top ten architectural firms in Singapore. His vision is to create a practice that would be excellent in its craft, while at the same time, committed to pro-bono community development projects in the developing nations to see lives and communities transformed in a tangible way. He envisions Genesis Architects becoming a key thought leader and frontrunner in reimagining the architectural industry in Singapore and beyond.

### **Going Beyond**

Is there more to architecture beyond design and buildings, awards and accolades? How can we leverage on our skills and talents to make a real difference to people in great need? Can one or two people really change the lives of others? Reimagine the power of architecture to change the present and shape the future of communities and nations, as Ar. Rudy Taslim takes you into the heart of Africa and under the bunkers of Ukraine where he is seeking to build a better future for people who need help most.

## SPEAKERS

### **AR. CHAN SOO KHIAN**

Founding Principal, SCDA Architects Pte Ltd

Chan Soo Khian is the founding principal of SCDA, a multi-disciplinary design firm engaging in architecture, interior, landscape, and product design. SCDA has offices in Singapore, Shanghai, New York, and Manila, and has had commissioned projects in over 70 cities through 5 continents.

A Yale graduate, and a professor in practice at NUS, Soo Khian has received 3 American institute of Architects award, 2 Royal Institute of British Architects international award, and was the Inaugural recipient of the President's Design Award in 2008. He has taught and lectured in several international universities including a visiting professorship at Syracuse University in New York.

In addition to architectural and design projects, Soo Khian has ongoing commissions by leading international Italian lifestyle Brands to design Furniture and sanitary fittings lines; the products have been distributed internationally and featured at the Salone Del Mobile in Milan.

### **Can Architects change the world?**

Can architects change the world? Architects are taught to be visionaries and to conceptualise high impact ideas. We believe we can change the world through our collective creativity, but the influence of architects to make a notable impact on the the way we live is decreasing as we lose agency. In view of the urgency of climate change, Architects can research smaller incremental initiatives rather than overarching Ideas, that may generate a larger than expected impact on social, cultural, and environmental sustainability.

Tenda is an ecologically empathetic habitat conceived by SCDA Lab that aims to generate measurable, beneficial social and environmental impact to their immediate context. The relocatable dwellings are Net Zero and generate and collect their own energy and water, representing an optimism towards sustainability. Part of the Income generated through Tenda allows the ecologically empathetic traveler to live in harmony with nature and contribute back to the community.

In 2017, the Urban Redevelopment Authority of Singapore chose Melvin as one of the “20-under-45” recipients, selecting him as one of twenty prominent architects under the age of 45. He has served on design panels and juries, notably, as World Architecture Festival Judge in 2014 and recently on the jury for URA’s Paya Lebar Airbase Ideas Competition in 2020. He also sits on the Investigation Panel of the Singapore Board of Architects (BOA).

## PANELISTS

### **AR. CHAN SOK YIN JULIANA**

Juliana Chan is a Registered Architect (QP) under Board of Architects Singapore and, a Professional member in Singapore Interior Design Society (SIDS) and vice president of Artists Society of Singapore. Graduated with both master's degree in architecture and University Scholars Programme from National University of Singapore (NUS), and high distinction in Art Elective Programme (AEP) from Nanyang Girls High School (NYGH) Singapore. With more than 14 years of architectural design practice and pursue of fine arts, Juliana juggles both passions and has been actively participating in local art exhibitions and international competitions, of which some were selected and featured, such as in "Stroke of Genius" and "Jackson's Open Painting Prize". Recently this year, one of her interior design projects is awarded honorary mention in SIDA Residential category. During the pandemic period, Juliana has founded Chan.SY Architects and NS Chan Studio to provide clients a multi-disciplinary service that ranges from architectural, interior design, fine art, and graphics illustration. Earlier in 2019, she was featured in Singapore's Business Times and The Peak Magazine to share her love for art and architecture with 3 other distinguished architects.

### **AR. CHENG YU-QI LYNN**

Lynn is a Product Manager at construction tech firm Hubble.Build where she builds digital construction management products. She is excited to possess these two identities, one as an Architect and the other as a Product Manager, helping her to drive the development of SaaS products that the construction industry truly needs. Her continual explorations have led her to data analytics and the development of machine learning driven products for a more intelligent construction ecosystem. Lynn is an alumnus of CPG Consultants, where she previously divided her time between the Singapore and Beijing office.

## PANELISTS

### AR. LIAU ANN WOON ALVIN

Alvin started Prose Architects in 2020 to practise Architecture that thinks, speaks and projects a clear and concise language. He believes this creates the fundamentals for Prose Architects to be both excited by exploratory emergent hybrid typologies, and yet still be intrigued by the seemingly banal. Alvin has more than 10 years of experience in architecture - from the design rigours of a boutique studio to the management considerations at a large office; from an architectural designer to team lead as QP. He nurtured his design fundamentals at Teh Joo Heng Architects, developed his architecture thinking as Design Architect at Surbana Consultants Pte Ltd and eventually matured his capabilities at DP Architects Pte Ltd as a Project Architect. Alvin is a firm proponent of guiding upcoming generations of architecture students. He has taken on the role of mentor to assigned students from local Institutes of Higher Learning as part of the SIA-YAL Mentorship Programme organised by the Singapore Institute of Architects. At DP Architects Pte Ltd, he was team co-lead for the Singapore University of Technology and Design (SUTD) Capstone Programme 2019, serving as mentor to the students to bring a nascent idea through to a theoretically feasible real-world design.

### AR. MICHAEL LEONG

With more than twenty years of practice experience in both the public and private sectors, Michael has developed insights and skills in urban planning and the design of various building typologies. His systematic and thorough approach of designing from a macro to micro perspective facilitates dialogue between buildings and their environment and creating inclusive spaces that promote human health and wellness. Among his current works is the Woodlands Health Campus (WHC), which will be one of Singapore's biggest healthcare facilities when completed. Its design integrates nature, community and technology to deliver person-centred care and promote passive design that tackles urban and climate conditions, to optimise comfort and health. As the Deputy CEO of SAA Architects, Michael is also involved in the development of the practice, bringing its vision to reality, nurturing talents, building excellence in design and making social impact.

## PANELISTS

### **AR. TAN JIA YU FIONA**

Ar. Fiona Tan is a registered Architect in Singapore and Principal of the Design Practice ATELIER IF. A recipient of the Design Singapore Overseas Scholarship, she completed her B. Arch in NUS and thereafter M. Arch in the Bartlett School of Architecture (UCL). Her formative years in practice were shaped by two diverse and award-winning architectural firms - CSYA Pte Ltd and Zarch Collaboratives Pte Ltd. At those firms, she had the opportunity to explore varying scales and typologies, from master plan studies, a Public Hawker Centre, residential homes, a Private Members' Club to temporary architectural pavilions including the Pathfinder (recipient of the SIA Design Award 2020 (Special Category)). In Atelier IF, she seeks to craft spaces that tell stories of their inhabitants through a tactile and material-based approach. She aspires to explore Architecture beyond conventional typologies and spaces of Permanence. Armed with a keen interest in multi-disciplinary collaborations, Fiona embraces the role of both the Permanent and the Temporary in architecture, placemaking and the arts. Some of these include temporary installation works featured at National Gallery Singapore, Asian Civilisation Museum and Goethe Institut. Outside of practice, she is also an Adjunct Design Studio tutor at the National University of Singapore.
